

Knowledge Hub on Sea Level Rise
**Black & Mediterranean Sea Scoping
Workshop**
Agenda May 5-6

This workshop is organised by the **Knowledge Hub on Sea Level Rise** with the support of **UPC BarcelonaTech**. It is part of a series of workshops, each dedicated to specific European Sea Basin.

These workshops will inform the agenda for a larger, pan-European expert conference to be held in Venice on **October 17 & 18 2022**. The main result from these workshops and the conference will be an Assessment Report on sea level rise, its impacts and policy options for each of the major sea basins around Europe.

The workshop is held on **Zoom**. We make use of the digital workspace **Mural** to engage with participants more interactively. These tools require no installation on your part.

We recommend using a second monitor during this workshop for optimal experience.

Day 1: Thursday 05/05

- | | |
|-------|---|
| 9:30 | Welcome & Introduction
Background on the Knowledge Hub on Sea Level Rise |
| 9:45 | Presentation of the KH SLR survey results for the Mediterranean and Black Seas
