30 mesi

Finanziamento CE:
2.299.949 €

Budget totale per il Comune di Bologna:
156.592 €

Contributo del Comune:
78.296 €

PARTNERS

COS'E' DEMOS

DEMOS è l'acronimo di Delphi Mediation Online System (Sistema di Mediazione Online Delfi), un progetto di ricerca e sviluppo europeo finalizzato alla diffusione e alla promozione della "democrazia elettronica", curato da un consorzio europeo formato da otto partner, due dei quali italiani (Comune di Bologna e NEXUS-IBA).
DEMOS non è solo un forum di discussione tradizionale, ma l'applicazione di un metodo sociologico studiato per far confluire le idee dei partecipanti in una posizione comune, costruita con l'apporto di tutti. E' un processo di discussione moderato in tre fasi che si concludono nell'arco di sei settimane circa.

IL TRAFFICO A BOLOGNA

ISCRIVITI SUBITO A DEMOS

Questa è la prima volta che DEMOS viene utilizzato in Italia e gli Iperboliani sono stati individuati dalla Commissione europea come la comunità di utenti più interessante, consolidata e significativa per questo test.
Se sei interessato ad esporre il tuo parere e le tue idee sul *traffico a Bologna*, se vuoi sperimentare una nuova forma di partecipazione, DEMOS può essere l'occasione giusta. La sperimentazione terminerà il 20 Febbraio 2002. Ricorda che l'iscrizione a DEMOS è consentita ai soli "Iperboliani", quindi registrati col tuo indirizzo e-mail *@iperbole.bologna.it*

L'iscrizione è semplicissima: registrati all'indirizzo
www.bologna.demos-project.org

Main objectives of the project

- Creating cross-border links between local and/or regional eParticipation projects
- Developing a network of expertise, sharing experiences, approaches and tools, raising awareness and contributing actively to the European good practice exchange portal and other eParticipation activities
- Create awareness for the topic among all relevant stakeholders
- Building synergies with actions supported in particular by the Commission concerning the Information Society and Regional development policies.
- Facilitate cooperation and business relationships among the members
